On November 22, 2014, Pat Quinlan and other SDSBS staff members, along with over 800 other individuals, participated in the St. Jude Give Thanks Walk held in Lake Worth, Florida, to benefit the St. Jude Children's Research Hospital. St. Jude has helped push the overall childhood cancer survival rate from 20 percent to more than 80 percent since it opened in 1962. Families receive free treatment, travel, housing, and food so that they can focus on their child's health. And St. Jude freely shares its research and breakthroughs with other doctors and scientists, so that children worldwide can benefit. During the event, Pat and Nancy's son, Brian Quinlan, and their team celebrated Brian's successful leukemia treatment at St. Jude.
